

PROJECT SUMMARY

Ground-up two-story build-to-suit office totaling 31,381 square feet with new site work. The concrete tilt-up has a full height curtain wall entrance, as well as metal and wood siding systems. The second floor received a completely customized tenant improvement package for an innovative AI company; including new partitions, ceilings, modern lighting, collaborative work stations, green features, conference rooms, relaxation spaces, restrooms, break rooms and an industrial kitchen with pizza oven. This transit-oriented building is located across the street from the Union City Bart Station.
