

Dan Warren

Vice President of Construction

A valued member of the W. L. Butler team since 2005, Dan oversees all construction operations for the Stockton and Livermore offices, an area encompassing the Central Valley from Fresno to Redding, as well as the East Bay and North Bay regions. His responsibilities include area-specific business development, project and personnel management, and cost estimating.

A graduate of Fresno State University, Dan is a member of the Leadership Team and has over 30 years of industry knowledge and experience in all types of commercial construction including medical, retail, education, office and industrial facilities.

Beyond his day-to-day responsibilities, Dan actively leads the Stockton office's community outreach, which includes volunteering with the Walton Special Center of Stockton and Autism Speaks. Regardless of the initiative, Dan approaches all his endeavors with the same calm demeanor, competitive edge and focus he brings to his favorite past time, golf.

"W. L. Butler is about their people, workplace, culture and growing from within. I could sense their passion, they had the same type of desire that I had, they loved the industry, and they loved to have fun... that's what brought me here!"
