

PROJECT SUMMARY

Tenant improvements for a new sustainable and vegan-friendly restaurant within the millennial-friendly 365 by Whole Foods Market. The 1,500 square foot “store-within-a-store” features a sales floor, point of sales station, bar-style seating and a back kitchen. CHLOE is a New York based brand, which is showcased by the antique tin ceilings and distressed red brick walls. The design and materials used in its West Coast outpost are asymmetrical to create a contemporary LA-style feel.
