SIZE: 12,740 SF

Related Information

AREAS OF EXPERTISE:

- Grocery & Food Service

OFFICE:

- Irvine

“We are very pleased with the quality, craftsmanship and the communication your team brought to the project. The punch we performed was one of the cleanest buildings we have encountered so far, especially since this was one of the first Fresh & Easy F7 proto stores built with wood construction. We feel this would have not been possible if it weren’t for good communication and experience.”

Andy Hellner, Project Manager
