

## PROJECT SUMMARY

Phase one included 56,000 square feet of office space, lobby, conference rooms and a fitness center, as well as a 12,000 square foot cafeteria capable of serving up to 1,000 people. The building received a complete seismic retrofit and a full generator back-up system. Under phase two, 46,000 square feet of executive office space was upgraded with a new glass fishbowl boardroom, café and skybridge connecting buildings one and two. In addition, a multimedia room was incorporated with an all-new AV wall, projection screens and state-of-the-art equipment. Under phase three, an open 1,500 square foot space was converted into a training room with accommodations for up to 30 people.

*“We were provided with a complete predictability for the construction side of the project and kept current each week on plan versus actual. The end result is an outstanding physical display of the vision we had throughout the project.”*

**Glen Simmons, Head of Strategic Programs**
